Motioned by: Tara Gorney

Seconded by: Tori Conicello-Emery

All in favor: Yes

The motion passes: 6-0

## **GENERAL PUBLIC COMMENT**

David McFadden, owner of properties in West Conshohocken Borough had complaints about the Fire Marshal and his attempt to complete the renovations at 1075 New DeHaven. John Iannozzi indicated that due to potential litigation that Council does not comment on Mr. McFaddens concerns.

Martin Kimmel, partner of 1075 New Dehaven also addressed Mr. McFadden's complaints about the fire marshal and asking for the help of solicitor and manager for what the Fire Marshal is asking over what is required by the Fire Code.

Guy Davis, resident, wanted to further discuss the ADA compliance in Council Agendas and minutes.

Dave Frankenfield, wanted to thank council for the efforts in meeting their budget requests.

Mr. Blumenthal wanted to thank the Council and public for all their efforts in making the community better and wished everyone happy holidays. Mr. Blumenthal indicated that there will be an executive session and will not be returning.

## **ADJOURNMENT**

Stephen Blumenthal asked for a motion to adjourn the meeting at 9:58 pm

Motioned by: Tori Conicello- Emery

Seconded by: Tara Gorney

All in favor: Yes

The motion passes: 6-0

Respectfully Submitted,

Cristina Meade  
Borough Secretary

# Personnel Committee

## Report for the January 10, 2023 Meeting of the West Conshohocken Borough Council

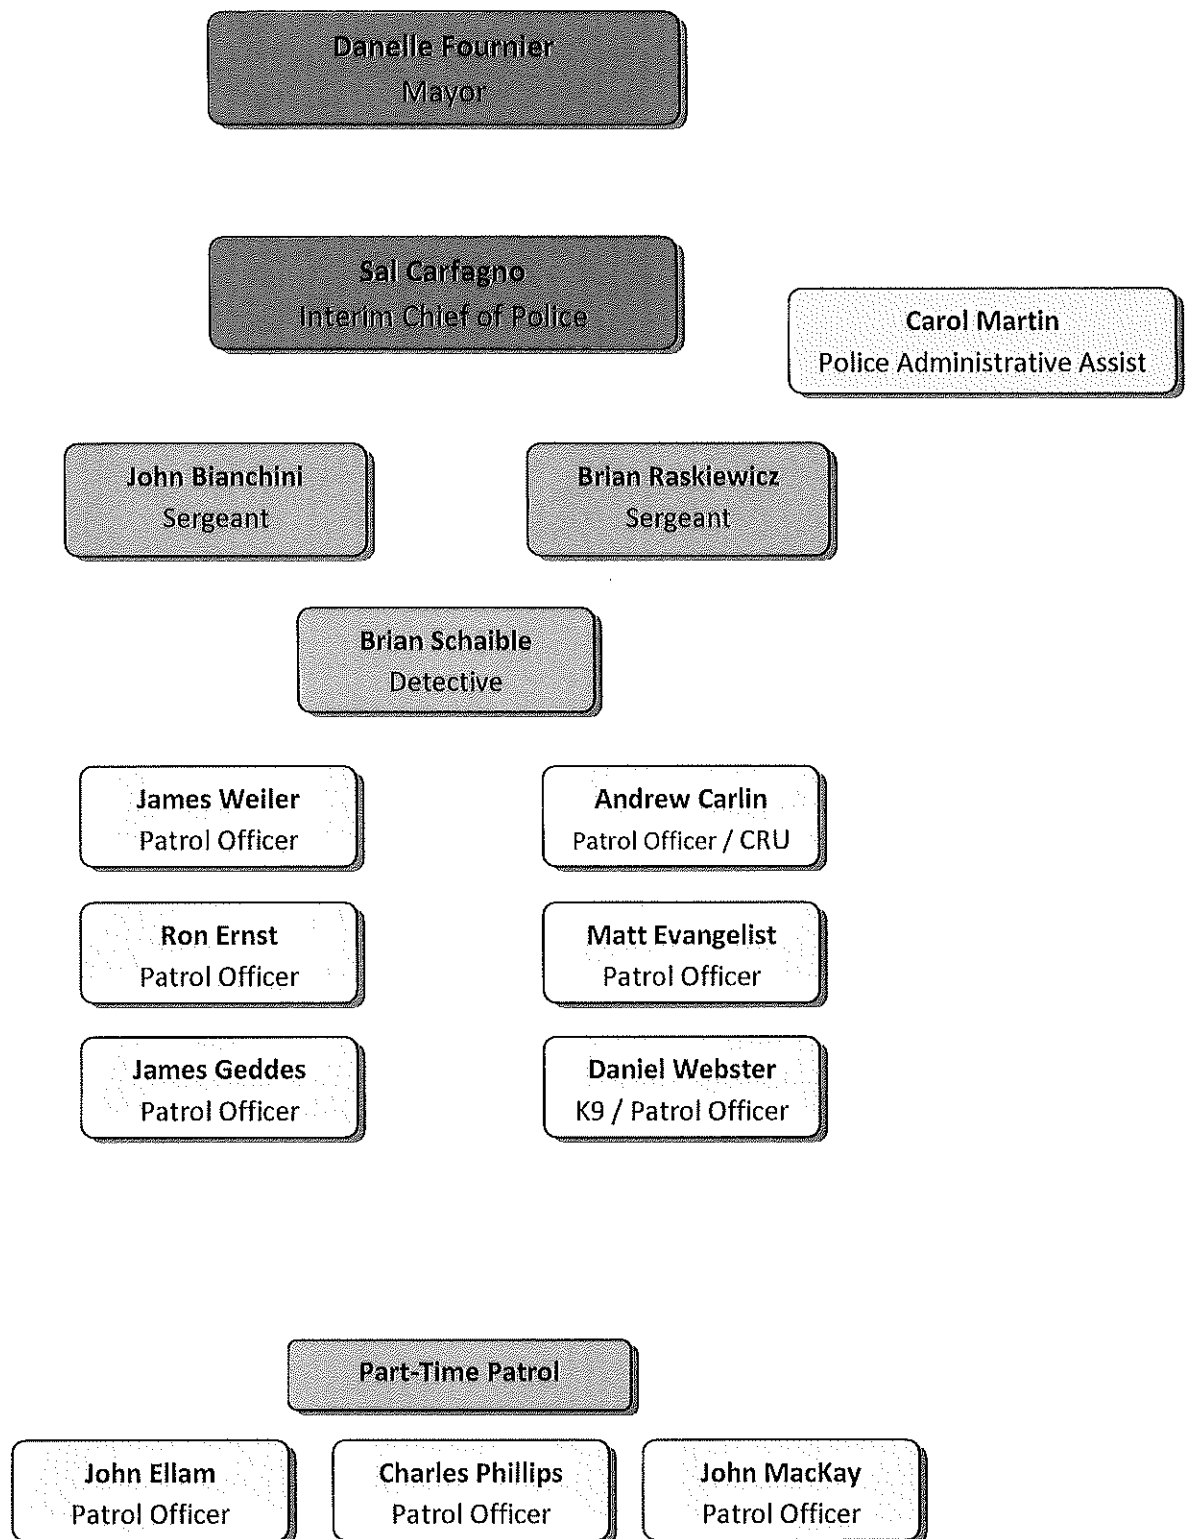

The Personnel Committee met on January 3, 2023, to discuss the creation of an Assistant Borough Manager position. The members of the committee considered information provided by the Borough Manager and the Council President that identified a number of reasons for adding an Assistant Borough Manager to the staff. These reasons include: expanding the capacity of the Borough Office to manage the day-to-day operations of the Borough, especially as additional work is done on the Vision Plan; providing coverage for Council, Committee, and other meetings that the Borough Manager is not able to attend; and ensuring that the business of the Borough can continue uninterrupted should there be a time when the Manager is unable to serve.

Following a discussion, the Committee recommended that the Council direct the Borough Manager to develop a full proposal (including job description) for a part-time Assistant Borough Manager position.

Submitted by Jeff Ewing, Committee Chair

## **WEST CONSHOHOCKEN POLICE DEPARTMENT**

### **DECEMBER 2022 MONTHLY ACTIVITY REPORT & NOTES FOR TUESDAY, JANUARY 10<sup>TH</sup>, 2023 MEETING**

#### **COMMUNITY RELATIONS**

##### **Christmas**

##### **December 2022**

The Police Department hand delivered a total of \$5140.00 in Christmas gifts to families in the Borough throughout the month of December.

##### **Special Thank You**

The West Conshohocken Borough and Police Department would once again like to recognize all the businesses and residents for their generous donations during the holidays and throughout the year. These donations allow the Borough and the Police Department the opportunity to give back to the community that supports us.

The Police Department would also like to give a very special "Thank You" to all the residents and businesses that gave to us during the holidays. We appreciate your generosity and thoughts, especially, to the Officers on duty during the Holidays.

### **Gypsy Reindeer Event**

**Tuesday, December 13, 2022**

The Police Department provided traffic control in the area for Gypsy Saloon's Annual Reindeer Event. Thank you to Gypsy Saloon for hosting and letting the Police Department be a part of your event.

## **DAILY OPERATIONS**

### **Budget**

The Police Department has completed and finalized their 2023 Budget. Thank you to the Borough Council, Public Safety Committee and the Borough Manager for all of their assistance with helping us complete our budget.

### **Body Worn Cameras (BWC) Update**

The Police Department's Body Worn Cameras have been in use for over seven (7) months. The implementation of the cameras have had a very positive impact on the Department. Aside from the everyday service call use, the cameras have been an asset to the Department assisting with arrests, prisoners, reports and evidence.

### **Training**

- All the Department's Officers have completed their annual mandatory First & CPR training.
- All the Department's Officers have completed their annual mandatory Firearms Qualifications.
- All of the Department's Officers have completed their mandatory Municipal Police Officers' Education and Training (MPOETC) updates for the 2022 year.
- All the Department's Officers continue to participate in daily online training sessions through Police One Academy. These training sessions are updated regularly and provide instruction on every aspect of modern day Policing.
- All of the Department's Officers will began reeducating themselves on the Police Departments new Policies and Procedures manual. This will consist of regular testing to

provide Officers with a better understanding and recognition of the Department's Policies and Procedures.

- A few of the upcoming training courses that Officers will be attending this year will be in crime scene processing and collection, handling drug overdoses, criminal investigations and handling crimes involving children.
- The Police Department has instituted annual employee evaluations that will provide Officers with an Employee Development Program.

## **FLEET MANAGEMENT**

### **Police Vehicles**

*\*(Vehicle mileage, warranties & conditions attached)*

## **TRAFFIC & PARKING**

### **Traffic**

Officers have been monitoring all the Borough's traffic areas. Specific details are still being conducting along Ford Street due to reported speeding violations. Residents and businesses are encouraged to contact the Police Department to report any traffic complaints or concerns so that we may address them immediately.

### **Parking**

The Officers continue to monitor and enforcing all parking complaints, issues and concerns throughout the Borough. Residents and businesses are encouraged to contact the Police Department to report any parking complaints or concerns so that we may address them immediately.

### **Traffic Radar Speed Signs**

- Moorehead Avenue
- Ford Street
- New Dehaven Street

*\*(see Radar Sign attachments for complete information)*

## **CALLS FOR SERVICE**

*(\*see Reports under Monthly Statistics & Yearly statistics)*

## **CRIMINAL ACTIVITY**

*(\*see Reports under Monthly Statistics & Yearly statistics)*

## **INVESTIGATIONS**

*(\*see Report under Investigations Log)*

### **Exceptional Investigation & Arrest**

On December 2, 2022 at 4:04 am, an unknown male walked into the Philadelphia Marriott West. He approached the front desk, brandished a firearm at an employee and robbed the hotel's cash drawers. The individual fled the Marriott on foot, got into a vehicle parked a short distance from the hotel and fled the area. Through security video, Police Bulletins and further investigation along with the assistance of the Pennsylvania State Police, the Federal Bureau of Investigation (FBI) and multiple other Police Departments across two Counties the individual was identified. Information shared by multiple Law Enforcement Agencies, found that the individual had been responsible for eight (8) other similar robberies. The State Police and the FBI arrested the individual, charging him federally. He faces multiple counts of robbery with a firearm and other related charges including the robbery committed in the Borough at the Marriott.

If anyone has any questions or concerns on any of the information provided, the Police Department would be happy to discuss them. In addition, if anyone has any issues or concerns that the Police Department can be of assistance with, please feel free to contact me or come to the Police Station to speak with an Officer or myself.

Please contact the following number for Police assistance:

West Conshohocken Police Station (610)940-5842

## NOTES:

Call volume declined the beginning of 2020 and continued through the year due to Covid restrictions, but picked up in 2021

Property/Business Checks & Directed Patrols discontinued as Reported Calls & instead logged in to account for an accurate account of reported calls

2021 Traffic Complaints were calculated by adding vehicle stops/calls, complaints, traffic/parking citations and warnings combined together

2022 Traffic Complaints are calculated and reported by each Individual Category for Statistical Accuracy

2020-2021 Noise Complaints included reporting decibel readings at local business (Reported by each Category 2022)

2022 Police Information Reporting has been looked at closely to ensure that calls are being reported accurately into their proper categories

**WEST CONSHOHOCKEN BOROUGH POLICE DEPARTMENT**

## **Speed Sign Radar Stats Traffic Synopsis**

### **Moorehead Avenue**

**TRAFFIC CONCERNS:** The officers continue to monitor the selective enforcement area on Moorehead Avenue from the Traffic Safety Radar Sign. The statistical report for Moorehead Avenue was downloaded by Officer James Geddes from 12-1-22 to 12-30-22 indicated the daily average speeds ranged from 14.0 MPH to 21.8 MPH, the 85<sup>th</sup> Percentile ranged from 28.0 MPH to 30.0 MPH. The radar sign tracked the movement of 8,676 vehicles for this period. (Northbound Movement). The traffic radar sign indicated an average of 0.18% of the total vehicles exceeded the speed limit over 36MPH for enforcement.

### **New Dehaven Street**

**TRAFFIC CONCERNS:** The officers continue to monitor the selective enforcement area on New Dehaven Street from the Traffic Safety Radar Sign. The statistical report for New Dehaven Street was downloaded by Officer James Geddes from 12-1-22 to 12-30-22 indicated the daily average speeds ranged from 19.7 MPH to 29.5 MPH, the 85<sup>th</sup> Percentile ranged from 33.0 MPH to 37.0 MPH. The radar sign tracked the movement of 14,336 vehicles for this period. (Northbound Movement). The traffic radar sign indicated an average of 3.87% of the total vehicles exceeded the speed limit over 36MPH for enforcement.

### **Ford Street**

**TRAFFIC CONCERNS:**

*The Ford Street Speed Sign is still experiencing technical difficulties. Data is currently unavailable for that area. The Department hopes to have traffic and speed data for Ford Street available for the month of January 2023. Officers continue to monitor the traffic speed and stop signs along Ford Street daily.*

**West Conshohocken Planning Commission 2022 Annual Summary Report**

**Membership** – The Planning Commission membership is full and has no vacancies. The PC was organized as follows during 2022 (the same organization was adopted for 2023 at the 1/5/2023 PC meeting):

Steven Curran – Chair

James Donohue – Vice Chair

Ted McKeon – Member

Matt DiPuppo – Member

Guy Davis – Member

**Meeting and Attendance summary (quorums summary)**

Date (2022)	Quorum (Y/N)	PC Members In Attendance	Virtual / In-Person	Notes / Actions
January 6	N/A	N/A	N/A	No meeting required
February 3	Y	4	In Person	Organized for 2022 – Steve Curran as Chair, James Donohue as Vice Chair; Welcomed Guy Davis as new PC Member; 2021 Annual Report submitted to Council
March 4	N/A	N/A	N/A	No meeting required
April 7	Y	4	In Person	McKenize Park phasing; <b>Motion passed to include Playground Equipment as part of MacKenzie Park Improvements Phase II, aligned to community feedback.</b> <b>Motion passed recommending Borough Procure Professional Planning Services for realization of Vision Plan.</b>
May 5	Y	4	In Person	MontCo Planning Commission training opportunities were shared. Overlay district concepts were explored. Introduction of Discovery Labs drawings and first review/discussion of the project.
June 2	N/A	N/A	N/A	No meeting required. Discovery Labs Engineering review by Pennoni sent to PC Jun 28.
July 7	N	4	In Person	Official Zoning Map review and discussion in context of developing Town Center district zoning options.

July 19	Y	4	In-Person	Special Meeting called for Town Center District Narrative draft review from Guy Davis. President Blumenthal notified of the PC's ongoing work in this matter on July 15.
August 4	Y	4	In-Person	<b>Motion passed recommending Borough Procure Professional Planning Services for realization of Vision Plan;</b> Zoning app advised for 946 Matsonford Rd; PC Members attend National Night Out to grow awareness for Town Center District narrative to support Professional Planning Services procurement and community input. Town Center District Narrative submitted to Council at August meeting.
September 1	Y	4	In-Person	Planning Commission Ordinance (i.e. by-laws) reviewed and edits recommended to Solicitor.
October 6	Y	2	In-Person	Discover Labs applicant presented zoning relief and conditional use items. Zoning app for 218 Brittnoir Ave presented. Planning Commission Ordinance resolution final draft (i.e. by-laws) presented by Solicitor, with PC concurrence. Shade Tree ordinance resolution reviewed. Solicitor communicated to PC that an understanding about procurement and workshopping of Planning activity will happen in conjunction and through the Open Space Committee and Chair Gorney.
November 3	Y	5	In-Person	Zoning advisory for 300-400 Barr Harbor extension. Zoning applicant for 1008-1010 Matsonford Rd. presented requests for relief / variances. <b>Motion passed recommending Council support the development at 1008-1010 Matsonford Rd.</b>
December 1	Y	5	In-Person	Upcoming applications and land development timelines review

**Summary of Motions** – See Notes/Actions in above table in **bold**.

## 2022 PC Objectives Review (UPDATES in bold)

### 1. Communication Ways of Working

- i. The PC will make an effort to continue periodic attendance at Council Meetings to keep dialogue open and share feedback on the PC's work. The intent is to rotate Members representing the PC at Council each month.

**UPDATE – Guy Davis has been the primary attendee for liaising with Council at monthly meetings and will continue if consent agenda is insufficient to convey important information from the Planning Commission to Council.**

- ii. Website usage, interactivity with residents and availability of minutes. The PC has received word that the PC meeting agendas and minutes will be posted to [www.westconsho.com](http://www.westconsho.com) Borough web site. Thank you for the increased visibility and transparency.

**UPDATE – Web site archiving of PC business continues. The creation and posting of the official PC email address is appreciated. This email address will be monitored by the Chair of the PC.**

- iii. Mailers schedule – The PC requests an email notification to its Members prior to its next meeting where afterward a Borough mailer is planned to go out. This will help the PC coordinate any messaging alongside the Borough Management and subcommittees, as well as encourage attendance by the public.

**UPDATE – This remains an area of improvement for the Borough Administration to improve collaboration with the Planning Commission and further community engagement.**

- iv. Video recordings of meetings (local high school A/V volunteer) – given the prevalence of remote/virtual meetings, the PC has briefly discussed feasibility/opportunity for video options. The PC defers to Council on increasing accessibility to the Borough's meetings.

**NO UPDATE**

### 2. MacKenzie Park Realization

- i. Sketch Plan finalization is a target objective. PC request Council to identify a deadline and steps needed to obtain a final plan that can be used for grant-writing.

**UPDATE – SK-07 is understood to be the approved current revision of the overall improvement plan for MacKenzie Park.**

- ii. Grant process clarity—The PC has been asking for clarity around ownership in the grant wiring process and timing. Without a clear plan, the grant cycles will continue to pass without the Borough taking advantage of these submission windows. Please advise roles and responsibilities on grant submissions, and a look ahead for 2022.

**UPDATE – PC acknowledges the excellent work by Borough Administration and Pennoni in securing approximately \$300,000 in funding opportunities from**

various grants in the Commonwealth and County. The PC will continue to explore and communicate opportunities for further applications in 2023.

- iii. Project Mgmt roles and responsibilities—similar to the grant process, it is not clear what the roles and responsibilities are amongst Borough Mgmt, Borough Council, PC, Parks & Rec, and Public Parks Property, and Open Space Subcommittees. If clear roles are defined then every group can focus and commit to moving the process forward. It may be best to appoint an overall Lead Coordinator, or two Lead Co-Coordination to bring together a project plan and target milestones for the project.

**UPDATE – Roles and Responsibilities remain an area of improvement to provide clarity on how the improvement plan will unfold, especially with respect to phasing. Increased transparency on the current phase plan and revisiting of how elements of the overall improvement plan are being prioritized remains a top objective of the PC in 2023. Request have been made to Pennoni for phasing info, it would be appreciated if the Borough Administration would support this request early on in 2023.**

- 3. Identification of the next Vision Plan Target Realization – For Discussion

**UPDATE – The PC now understands the ways of working determined by Council for Town Center District planning workshop(s) and engagement with professional planning service provider(s) (Simone Collins) which is to be carried out in the Open Space and Revitalization Committee at Chair Gorney's direction.**

## **Looking Forward – 2023 Objectives**

### **1. MacKenzie Park Improvements realization**

- a. Oversight and input to the Phase Plan details for MacKenzie Park improvements. Specifically, prioritizing the Borough's children.
- b. Make recommendations on Project Coordination and continuous community involvement and communication mechanisms.
- c. Grant opportunities and providing other ideas for funding partnerships

### **2. Town Center Phase Planning**

- a. Coordinate with and participate in workshops at Open Space and Revitalization Committee, including professional planning service support.
- b. Review and recommend potential Official Zoning Map modifications, with professional planning service support.
- c. Community Outreach, improving engagement, and communication mechanisms,

The PC Members look forward to discussing the above topics and supporting the Borough and its Citizens throughout 2023 and beyond.

Respectfully Submitted,

Steven Curran

Chair, West Conshohocken Planning Commission

**West Conshohocken Borough NFPA 1720 Analysis**

## Acknowledgements

This analysis was conducted to inform Borough planning and guide decision making related to providing fire protection to the community. The assistance of George Clay officers and members has been invaluable in this process.

## Purpose

The George Clay Steam Fire Engine & Hose Company No 1 of West Conshohocken has been serving the Borough for 125 years. In those 125 years there have been significant changes in the community and in firefighting. In particular, the hours now required to train to become a certified entry level fire fighter and vehicle and water rescue technician exceeds 400 hours. For comparison work hours in an average year are 1,757. Maintaining those skills and expanding them to the advanced capability level requires even more time. At the same time, the number of people living and working within a few minutes of the station that are able to leave work or their family at a moment's notice and respond for emergencies has become very limited. The combination of these factors means that the needs of the community and the time demands of training have grown beyond what can reasonably be expected from an all-volunteer system. This analysis is the first step in assessing how the volunteer system can be supplemented to ensure that the Borough can provide the necessary and desired level of fire protection while continuing to rely on available volunteers and preserving the proud tradition of service that West Conshohocken has enjoyed for 125 years.

## Introduction

The NFPA 1720 standard is intended to provide guidance on best practice for governments by specifying the minimum criteria addressing the effectiveness and efficiency of the volunteer and combination public fire suppression operations, emergency medical service, and special operations delivery in protecting the citizens of the jurisdiction.

This review of the existing and available records of West Conshohocken Borough and George Clay Fire Department was completed to assess the status of the fire suppression and special operations and identify actions West Conshohocken Borough should take to ensure adequate levels of future fire suppression delivery.

It is important to note that this evaluation is not an evaluation of firefighters, or the firefighting actions or on scene operations or performance of any firefighting or rescue task. This evaluation is focused on organization and deployment service levels specifically for firefighting and special operations.

## I. Applicability of the Standard

NFPA 1720: Standard for the Organization and Deployment of Fire Suppression Operations, Emergency Medical Operations, and Special Operations to the Public by Volunteer Fire Departments, 2020 edition (hereinafter NFPA 1720) Section 1.3.1 provides that the authority having jurisdiction, in this case Borough of West Conshohocken, determines if this standard is applicable to its fire department.

By way of further explanation:

“A.1.3.1 The authority having jurisdiction (AHJ) generally has the responsibility to determine the following:

1. Scope and level of service provided by the fire department
2. Necessary level of funding
3. Necessary level of personnel and resources, including facilities

In order to provide service, the AHJ can have the power to levy taxes, solicit funding, own property and equipment, and cover personnel costs. The authority necessary is conveyed by law of a local jurisdiction.

In addition, the governing body also should monitor the achievement of the management goals of the department, such as fire prevention, community life safety education, fire suppression, employee training, communications, maintenance, and department administration.

Spelling out the specific parameters of services to be provided allows the fire department to plan, staff, equip, train, and deploy members, career and volunteer, to perform these duties. It also gives the governing body an accounting of the costs of services and allows it to select those services they can afford to provide. Likewise, the governing body should identify services it cannot afford to provide and cannot authorize the fire department to deliver; those services should be assigned to another agency.

The fire department should be no different from any other government agency that has the parameters of its authority and services clearly defined by the governing body.”

There are a number of ways that a jurisdiction may decide to utilize the 1720 standard. It is recommended that the Borough of West Conshohocken elects to consider it a benchmark to work towards.

NFPA 1720 defines a volunteer fire department having volunteer emergency service personnel comprising 85 percent or greater of its department membership thus George Clay is appropriately evaluated as a volunteer department.

George Clay Fire Department was organized by charter in July of 1898. They are recognized by the IRS as George Clay Steam Fire Engine & Hose Company No 1 of West Conshohocken with an EIN of EIN: 23-6393293 as a 501(c) (4). They have filed 990 forms through 2019.

The Borough of West Conshohocken Code of Ordinance recognizes George Clay as the Volunteer Fire Department serving the Borough.

The Borough Code also recognizes the West Conshohocken Borough: George Clay Steam Fire Engine and Hose Company Relief Association. No record in Pennsylvania or with the IRS was found for this organization however, a nonprofit Pennsylvania Corporation exists: George Clay Fire Company Disaster Fund Committee of West Conshohocken created in 03/09/1971.

It is recommended that necessary paperwork to formally recognize the Relief Association be filed. George Clay is already working on this.

## II. Organization, Operations and Deployment

### Fire Suppression Organization and Documentation (4.1)

NFPA 1720 section 4.1 addresses the need for departmental documentation including regulations and operating procedures and orders.

Currently, George Clay has SOPs that address the chain of command, incident management, response, training and some administrative aspects. Department policies, regulations and operational procedures are in writing and available to all members. A copy of the current SOP's are attached as Appendix I

Recommendation that SOPS should be reviewed, updated and consolidated. SOP's should be added to document all standing policies. A process should be developed to ensure that all members read the existing and revised regulations and procedures. A record of member's acknowledgement of understanding the documents should be kept and these documents should be reviewed periodically at training. (4.1.1)

## Community Risk Management (4.2)

The municipality does not currently have a community specific risk management plan however, the fire marshal's office intends to conduct one in 2022. Recommended that the fire department participate in that process.

Disaster planning and hazardous materials planning are done at the county-level with a county wide plan in place and a county wide team that is able to respond to hazardous materials incidents and provide technician level services. George Clay provides information and cooperation in this county process.

## Staffing and Deployment (4.3)

The department most recently has been all volunteer with a paid driver and a part time paid assistant beginning as early as 2014.

The department meets the NFPA 1720 definition of volunteer department with more than 85% of its members are volunteers. (3.3.16.2)

According to the 2000 census, the Borough has a resident population of 1,446 people with 600 households and 342 families. With a land area of .9 square miles. The population density was 1,701.4 people per square mile (656.8/km<sup>2</sup>).

This puts the Borough in the demand zone classification of an Urban area. (Table 4.3.2)

The expected staffing is 15 people with a response time of 9 minutes 90% of the time.

Note that that 15 people include automatic aid but not mutual aid. Automatic aid is defined as a pre-agreed upon plan providing joint dispatch and immediate response of more than one department. This is different from mutual aid which is reciprocal assistance that is part of a communication center dispatch protocol.

In 2021 there were 235 calls. Of those approximately 98 were in West Conshohocken, and 137 were in other municipalities. Call list included as Appendix II. Compare this to 2016 when one third of the calls are mutual aid to other areas.

Over all the response time is 9 minutes or less in 78% of the time however, if calls where the response is from mutual aid in another municipality or for aid on the limited access highways – then the department is on scene in 9 minutes or less 96 % of the time.

Number of George Clay personnel in the initial response varies from 2 to 17. Most frequently 6 personnel are on the initial response and second most frequently 5 personnel.

The existing dispatch system includes automatic aid from other area companies on any call that comes in as a fire. This means that if a caller reports a fire the initial dispatch includes George Clay as well as an engine and ladder minimum from neighboring departments. Depending on the situation that is reported in the building that is involved, additional apparatus is dispatched as automatic aid as well. With the available information it is not clear how many personnel from other departments are arriving on their apparatus at the same time to make up the initial responding crew. It is hard to assess whether the 15 staff member total is being met.

Arrival to in service time should be less than 2 minutes. (4.3.4) This refers to the time between arrival on the scene and initiation of the fire attack. This information is not captured at the station level and would need to be purposefully captured for future study.

On responses personnel are assigned to work groups that satisfy 4.3.5.

Response assignments are part of the county dispatch system and appear to satisfy 4.3.6

The current automatic aid dispatch set up is included as Appendix III. It is recommended that the current system of mutual aid be explored to assess the levels of mutual aid that are being provided to West Conshohocken and by George Clay to surrounding municipalities and to bring the municipalities that are reliant on George Clay together to discuss strategies for meeting growing need.

#### Reporting Requirements (4.4)

Incident reports are being maintained by the department. A new system, ESO, is in the process of being brought online. An annual report was presented, and it is anticipated that a Quadrennial report will be produced.

#### Fire Suppression Operations (4.5)

Incident command is used at emergency operations, including an IC and officers. SOP's should be reviewed to ensure they are clear and meet the requirements of the standard.

#### Initial Firefighting Operations (4.6)

Four air pack qualified members must be on scene ready to operate before any entry can be made into a hazardous environment to perform interior suppression operations. (4.6.1) Note there are a few emergency exceptions but in general it is expected that there will be a team of four interior firefighters at the minimum.

Two members can then enter with two remaining outside, one of whom can do other work as long as it is not critical and can be ceased at any moment to make entry. This means that the pump operator should not be counted towards that four nor should the incident commander.

Realistically, this means that for apparatus to arrive and go in service a minimum of six people is needed with at least four being air pack qualified and able.

Data on the fire department members currently physically able to wear an air pack and perform interior firefighting is limited. Approximately 15 of 20 of the most frequently responding members appear to be trained to perform interior firefighting however it some of those 15 may not be able to perform interior firefighting operations.

It is likely that for initial interior operations at least one automatic aid company's personnel must respond to fill out the required 2 in 2 out to perform interior attack.

It is recommended that an accurate count of air pack qualified and able responders from all.

#### Sustained Firefighting Operations (4.7)

Because of the mutual aid system in the county personnel and resources for sustained firefighting operations are adequately staffed.

#### Intercommunity Organization (4.8)

The mutual aid system in the county is organized to provide both automatic aid and mutual aid to all departments. In West Conshohocken, as previously identified, some responses are set up to be dispatched with automatic aid through the county box system and in other cases there are building specific agreements.

Going forward there is a need, as previously discussed, for joint municipal cooperation to explore future needs and how they can be met.

#### Special Operations (4.10)

The department provides three types of special operations responses:

- water rescue
- operations level hazardous materials response
- vehicle rescue.

### III. Systems in the Department

#### Safety and Health System (5.1)

A firefighter occupational safety, health, and wellness program shall be provided in accordance with NFPA 1500. At this point there is no health and safety program in the department and with the current level of staffing adding this function would not be possible. (5.1.1)

This is identified as an unmet need.

As a minimum, the fire department shall ensure an AED is available on scene with personnel adequately trained in its use. The department currently does have an AED and thus meets 5.1.2.

#### Incident Management System (5.2)

The department currently uses an incident command system that is documented. The department has trained all members on NIMS compliant ICS.

#### Training Systems (5.3)

1720 states that the fire department shall have a training program and policy that ensures that personnel are trained and competency is maintained to execute all operations consistent with the department's organization and deployment as addressed in Chapter 4.

George Clay provides firefighting, vehicle and water rescue services as well Hazmat Operations level response and fire police and public assistance. In assessing the training and competencies that are related to the provision of those services there are three primary sources of guidance.

The first is NFPA standards

- NFPA 1001, Standard for Fire Fighter Professional Qualifications
- NFPA 472, Standard for Competence of Responders to Hazardous Materials/Weapons of Mass Destruction Incidents
- NFPA 1006 Standard for Technical Rescue Personnel Professional Qualifications and NFPA 1670: Standard On Operations And Training For Technical Search And Rescue Incidents

For Hazardous Materials some department responsibilities and incident practices are included in OSHA 1910.120 which is applicable in Pennsylvania under EPA 311.

In addition, the Pennsylvania Fish and Boat Commission maintains a five-course water rescue curriculum in Pennsylvania and a voluntary certification program.

These standards provide a baseline for the minimum skills and knowledge competencies of individual serving in fire department positions.

There are several ways that competencies are acquired and maintained including the training done in station and through the county fire academy as well as individual training.

Verification of hazmat competencies on an annual basis is required by EPA 311. Maintenance of other competencies via regular training should be tracked. Consider certification testing for initial competence checks.

Full records of the content of trainings were not available however a list of certifications members hold was provided. A review of the 20 most active members finds:

- 16 are certified to the Fire Fighter 1 competencies
- 12 are certified to the Fire Fighter 2 competencies
- 8 are certified to the Hazmat Ops competencies
- 8 are certified to vehicle rescue competencies
- 6 are certified to the basic boat ops level

These numbers were constructed from available data which was limited so some personnel may have additional certifications. This data does not reflect station-based training that covers some components of these competences on a regular basis. It is important to recognize that certification and training or not the same thing. The numbers of certified members do not reflect members training but rather only the verification of skills that has taken place.

Training attendance is tracked and many courses are offered by the fire academy and that training supplemented with in house drills and reviews. There is currently no system to break down training sessions to assess acquisition and maintenance of skills outlined in the standards with the exception of hazmat.

Tracking acquisition and maintenance of skills in the standards is currently an unmet need. It is recommended that a system of tracking skills acquisition and maintenance is developed and implemented however it is recognized that this is beyond the staffing that is available at this point.

Meeting the training requirements is a recognized difficulty.

The time commitment is extensive and in addition, some of the water rescue courses are only offered once a year and may require some in state travel to attend. For a new firefighter to be trained to the initial level required to be an interior firefighter they need to attend almost 140 hours of training. The training is typically offered one night a week and one weekend day and takes six months total to complete. It is increasingly difficult to volunteer to give up almost six months of Saturdays or Sundays just to meet the minimum training to become an interior firefighter. The system as it is set up in Montgomery County offers the opportunity for training

as fire ground support personnel and for exterior operations only which is much shorter than the time required for interior firefighting. While exterior operations training only does not help with the need for interior firefighters, it is an area where volunteers can provide significant supplementation to operations freeing up the interior fire fighters for those operations.

It is recommended that the fire company create a plan to train more members on water rescue and to train new members to the firefighter 2 level. Recommended to explore the opportunities for publicizing the possible support position volunteers. This will include individuals trained to exterior operations only as well as potentially recruiting individuals who may not want to be firefighters but would be interested in being a part of water rescue or vehicle rescue or other specialty areas.

A second recommendation is to increase the recognition of time spent in training through LOSAP.

#### Pre-Incident Planning (5.5)

Fire departments are to have a system to complete and use pre-incident plans that meet NFPA 1620. (5.5.1 through 5.5.3)

Some pre-incident planning is done now in the form of SOPs but there is no organized system in place to manage and update plans. The Borough currently has staff available to conduct the preplanning, however a system is needed to manage the plans and make them accessible to the department during responses. The new ESO software will have this capability however the man hours to manage it will place an additional burden on the department.

Recommended to have the FM office begin to upload pre plans when ESO is active.

## IV. NEXT STEPS

A review of the calls for this year clearly demonstrates that George Clay is already working in conjunction with other municipal fire departments to provide fire protection for West Conshohocken and throughout the area. While this cooperation has grown someone organically to this point, as the county continues to change over from all volunteer systems to supported systems, efficiency and effectiveness for municipal government will require even more cooperation. A forum should be created to open the door to discussions about future possibilities.

This will ultimately mean that we may need to review and revise municipal ordinance to address joint service by surrounding municipalities. This could potentially require written agreements for mutual and automatic aid that cover topics including:

- Liability for death and injury
- Disability retirements
- Cost of services

- Authorization to respond
- Staffing and equipment
- Resources made available
- Designation of incident commander

**Action item: Create an opportunity to bring leadership from the surrounding municipalities and their fire departments together to meet and discuss.**

In the immediate future, George Clay should consider starting a duty crew system where individuals commit to availability on a specific shift of time. For example, a volunteer might commit to serving 6pm until 6am every Thursday. This would ensure that there were sufficient responders available and identify shifts when adequate staffing is not available in advance. This does not prevent any available volunteer from responding to all calls but simply ensures that a full crew is available to respond when called.

Extrapolating on this idea, there are already departments in the area that have worked out cooperative duty crew set ups with neighboring departments so that each department takes a turn providing a full crew first response for all participating departments.

**Action Item: Explore duty crew options.**

**Action Item: Complete risk analysis and determine number and type of apparatus and staff that should be assigned to respond to reported incidents.**

The Borough should complete Community Risk Reduction plan and take action to reduce false alarms. Two areas of significant demand on the fire department that were observed or the number of false alarms and alarm systems as well as the significant demand of responses on the highway.

**Action Items: Complete Community Risk Assessment and Risk Reduction Plan.**

The fire department should have a health and safety program that meets NFPA 1500 and a training management program to document meeting NFPA competencies. The fire department should also create additional documented personnel policies and create a system for the Borough legal staff to review personnel policies. Current staffing levels do not permit these things to be undertaken, so the borough should consider the current need for administrative staffing for the fire department as well as firefighters

**Action Item: Complete needs assessment for systems support.**

## V. Looking Ahead

While there are few statewide requirements for fire departments in Pennsylvania, departments can voluntarily certify through the Commonwealth's Certification Program administered by the Office of the State Fire Commissioner. This program provides the opportunity for departments to be recognized as being staffed by certified fire professionals, volunteer and paid alike, in accordance with nationally recognized and sanctioned Professional Qualification standards. There are currently 209 organizations of all sizes recognized under the program including 9 Montgomery County departments. Recognition starts at having 10% of personnel certified and departments can go on to achieve 100%. George Clay participated in this program in the past and is again participating this year. This program and will receive recognition this year for having the majority of their members certified. Continuing participation in this program provides recognition of the professionalism and the George Clay members bring to the department.

In addition to firefighting, it is notable that George Clay's provides water rescue and vehicle rescue services that account for a significant number of calls. Because this is such a large portion of the responses George clay provides it would be useful for the department to consider participating in the Pennsylvania Voluntary Rescue Service Recognition (VRSR) Program. The (VRSR) program provides guidance and to develop recommendations for Pennsylvania swiftwater/flood evacuation including, but not limited to:

- Organizational development.
- Resource Identification and Categorization.
- Training and Equipment.
- Develop recommendations for staffing, training and equipment based on applicable standards. This guidance is supported by NPFA standards 1006 and 1670.

Both of these programs would provide some outlines and stepwise methods to guide organizational development for the near future.

## VI. DCED Study

The DCED study will examine several topics covered here in greater detail as well as examining other aspects to create a broader picture of the environment within which the department operates. This analysis and the DCED study will be complementary and enable a plan to be created to support the volunteer system in the community.

## Appendix I

## George Clay Volunteer Fire Company Standard Operating Guidelines

The George Clay Volunteer Fire Company adopted these guidelines on Tuesday, August 3, 1999 to help protect its firefighters. **Revised February 2022.**

(Revisions added and approved by Company Line Officers)

When performing their duties firefighters are to follow these guidelines to help ensure their safety and the safety of fellow firefighters.

- In this document the following acronyms shall refer to as:
  - FF- Firefighters
  - SOG- Standard Operating Guidelines
  - SOP- Standard Operating Procedure
  - SRP- Standard Response Procedure
  - PPE- Personal Protective Equipment
  - OIC- Officer in Charge
  - ICS – Incident Command System
  - POV- Personal Operating Vehicle
  - PAS- Personal Accountability System
  - PAR- Personal Accountability Report

FF should act in a professional manner responding to and from all incidents, schools, and around the station.

FF should respect the Chain of Command as follows:

1. Chief
2. Assistant Chiefs
3. Chief Engineer
4. Assistant Engineers
5. Drivers of Apparatus (In absence of any of the above)

**Required Training:**

1. N.I.M.S. 100 &700  
(National Incident Management System)
2. First Aid
3. CPR
4. Hazmat Awareness

FF should make an effort to attend company, county schools and training as required.

**No FF should operate or board fire apparatus while under the influence.**

## **Personal Protective Equipment (PPE)**

A. FF should have in their possession all appropriate Personal Protective Equipment (PPE) when boarding apparatus and responding to incidents.

B. Emergency PPE for firefighting shall consist of:

- Helmet/Face Shield
- Turnout Coat
- Traffic Safety Vest
- Bunker Pants/Boots
- Fire Gloves
- Fire Hood
- Self-Contained Breathing Apparatus (S.C.B.A.)

C. Water Rescue PPE

Recommended In Water or On Water PPE

Dry Suit / Class 5 Life Vest / Water Helmet / Water Gloves  
/ Personal Throw Bag / Personal Flashlight / Safety Glasses

Recommended On Shore PPE

Life Vest / Helmet / Gloves / Safety Glasses / Throw Bag

D. FF must wear all appropriate PPE at emergency scenes unless instructed otherwise by the OIC.

## **Personal Accountability System:**

The use of a Personal Accountability System will provide enhanced personal safety for the individual firefighter and will provide the incident command organization staff an improved means to track and account for all personnel and their location within the incident perimeter that is hazardous and where entry is strictly controlled. This would include entering a structure that is on fire, operating in close proximity to the structure during exterior operations, confined space or trench rescue, chemical leak, or other high risk operations occurring in an area that is off limits to non-authorized personnel. To meet the goals of the NFPA 1561, the department shall implement the Personnel Accountability System at all incidents. This accountability system is in line with Montgomery County and the Montgomery County Fire Chiefs Association standards in place.

**A.** It is the duty of all personnel to understand his/her role in the P.A.S., to work within the safety system, to keep their supervisors informed of their activities and whereabouts, to refrain from freelancing and if functioning as a unit officer, to be constantly aware of the status of fellow crew members.

**B.** The fire company will issue four (4) personnel tracking tags to each member.

1. FF are required to hang one ID tag in apparatus for accountability system. Said ID tag is to remain on FF's helmet (on D ring provided with helmet) when not on emergency calls or training exercises. This applies to when the FF's helmet is stored on their rack.

2. FF are required to have one ID tag on FF gear at all times.
3. FF are required to leave one ID tag at the front door of a non-commercial structure fire, or in the lobby area of a commercial structure fire or Manpower Pool of an incident. Upon leaving the structure or Manpower pool, FF should collect their tag to keep the accountability count accurate.
4. Officer of apparatus/Driver of apparatus shall be responsible for the accountability of the crew on the apparatus at the time of arrival and departure of all incidents and company participated events.

**C.** All first-out resources will carry a First Due Collection Board or ring. All command resources will carry a Collection Board and blank ID tags for use as needed.

**D.** All firefighters and officers will familiarize themselves with this guideline and ensure their compliance in order to ensure safety of all members.

**E.** Individuals arriving via personal vehicles shall report to the Command Post and have their ID tag affixed to the unit, company or area to which they are assigned.

**A. Level I Accountability:** Will be established on all fire company responses where the unit goes into service. The Incident Commander is charged with tracking units operating on the fire ground as well as their specific location. The unit officer is responsible for the accountability for each member of the crew and will keep I.C. apprised of the unit's and location within the structure. One accountability tag will be

placed on the apparatus clip board during Level I accountability.

**B. Level II Accountability:** The I.C. will activate Level II accountability when the incident expands in scope or the span of control exceeds that which is recommended by the Incident Command System. The I.C. will designate an Accountability Officer who will immediately start to track operating units on scene, their function, the exact location where they are operating and their time of deployment. The Accountability Officer may need additional personnel to serve in support functions. This may include tracking individual units in operations as well as staging, base, R&R and those released from the fire ground. If members are deployed from manpower pools, the Accountability Officer or his/her designate will organize the members as a unit, assign them a radio designation to be used strictly on the operating fire ground frequency (if needed) and track individual members through the unit supervisor to whom they have been assigned. If the I.C is establishing a forward command officer at this point, the member's third tag will be used to track the individuals.

### **Accountability Equipment:**

**A.** The accountability equipment shall include: Four (4) ID tags.

**B.** Each apparatus shall have collection rings with apparatus/department ID tag affixed.

**C.** A status board should be available to the incident commander and to any key sector or accountability officer collecting tags

**D.** Blank tags should be available for other agencies, e.g. Police, Public Works, EMS and firefighters arriving via personal vehicles (marked with grease pencil).

### **Accountability Officer / Supervisor:**

**A.** Accountability Officers will be responsible to track and account for all personnel working in the assigned divisions/group exposure or danger area. Accountability officer will report to the Safety Officer.

**B.** Division/Group Supervisor will always maintain an accurate tracking and awareness of crews/individual firefighters assigned to them. This will require the Division/Group Supervisor to be in his/her assigned area and maintain close supervision of crew assigned.

**Terminating the accountability system:**

**A.** Accountability will be maintained at least through a report of “fire or situation under control,” at which time a roll call (PAR) for all crews should be obtained.

**B.** Command will determine at that time, based on the situation and risk as to whether to continue with the accountability procedure.

**C.** If visibility is still impaired or a significant hazardous condition still exists, command may choose to extend the accountability system beyond “situation under control”.

**D.** Upon determination or release from the incident, the Supervisors or crew leaders will ensure that the tags are returned to the firefighters.

## **Emergency Response:**

1. Firefighters are NOT to board apparatus when in motion.
2. FF should meet the criteria set forth by the company before boarding any apparatus.
3. All FF should stay with apparatus when arriving on scene until further ordered by OIC.

FF responding to a High- Rise Structure are to have in their possession the following tools:

1. One (1) portable radio (proper for current use).
2. A set of Forcible Entry Tools (Axe and Halligan Bar).
3. Thermal Imaging Camera.
4. Rope Bag.

FF not able to obtain a proper seal when donning an SCBA face piece is not to put that SCBA in service and is to notify the OIC of the situation.

FF putting SCBA in service shall activate PASS device.

FF operating hose lines shall wear SCBA unless specified by OIC, also includes Back up Person and possibly others depending on operational issues. Field Fires are Officers discretion.

FF should use the Buddy System and be in full PPE when entering a hazardous situation.

FF should return to the station with same apparatus they responded on. Any change should be made with the officer and operator of the apparatus.

All FF equipment and apparatus is to be put back in service before any personnel are released from the incident, unless released by OIC.

FF should follow Standard Response Procedures (SRP) as posted in engine room by the company and chief officers unless ordered by the OIC.

FF should familiarize themselves with these SRP.

FF should familiarize themselves with all apparatus and equipment on apparatus.

FF should return any defective equipment to the driver of the apparatus it came from. Driver shall put it out of service and report it to the Engineers.

Smoking shall be prohibited on all apparatus and when a hazardous condition is present at the scene. Smoking shall be based on incident: i.e. long call, use good judgment.

FF should report to fire station in all emergencies to retrieve gear and get apparatus to respond to incidents, unless specified otherwise by the OIC.

If all apparatus has departed FF can retrieve gear and respond in Personal Operating Vehicle (POV) if needed by the OIC. Every effort should be made by these personnel to car pool

and bring as few vehicles as possible. Upon arrival FF shall report to the operator of an apparatus for accountability and assignment.

FF Turnout Coats shall have Traffic Safety Vests properly placed on them while not in service.

FF will utilize Traffic Safety Vests on any incident on any highway or street with vehicular traffic. All FF on the apparatus shall wear vests provided to them by the fire company, with exception of the firefighter on the tip of the hoseline in a vehicle fire incident.

### **Accident with Apparatus:**

If an accident occurs with any apparatus, the local police department will be notified, and information will be exchanged.

The OIC, Chief and Chief Engineer will be notified.

### **Apparatus Response:**

If a qualified driver for the preferred or requested apparatus is not available, the response will be made with the apparatus available to the qualified driver present at the alarm.

Example: No qualified driver for Quint 39, however driver is qualified on SD 39 or SD39-1. SD 39 or SD39-1 will be utilized to make the alarm response.

### **Accident with Injuries Response:**

1. Give report upon arrival
2. Setup a safe working zone
3. Fire suppression / stabilization of vehicle / rescue / landing zone / assist EMS with lifting if requested
4. EMS will render medical treatment upon arrival

### **Building Response including Automatic Fire Alarms**

- 1<sup>ST</sup> Quint-39: Respond to front of building
- 2<sup>ND</sup> 39-Rescue: Respond to nearest hydrant, prime responsibility is to ensure adequate water supply to Quint 39
- 3<sup>RD</sup> 39-Engine: Respond to same hydrant as 39-Rescue to pick up hydrant or continue lay
- 4<sup>TH</sup> Utility-39: Respond to general area and await further orders

### **Gas Incidents / HAZMAT Response:**

Gas leaks, fuel spills, chemical spills, Hazardous Materials incidents etc. Inside a building will be a Building Response.

Gas leaks, fuel spills, chemical spills, Hazardous Materials incidents etc. Outside a building 39-Rescue will respond only.

### **Highway / Roadway Response:**

Vehicle fires, brush fires, wire and transformer fires, dumpster fires etc. 39-Rescue will respond only

39-Engine: will contact OIC and ask if assistance is needed upon rescues arrival

### **Water Rescues:**

1<sup>st</sup> Utility-39 and Marine-39

2<sup>ND</sup> 39-Rescue: Respond with Manpower and equipment

3<sup>RD</sup> 39-Engine: Will contact the OIC and ask if assistance is needed

### **Mutual Aid Assist to Neighboring Departments:**

After initial dispatch if a crew of three (3) is assembled in the station, the OIC will be contacted and asked if additional resources are needed.

### **Standbys:**

39-Engine / 39-Quint will respond unless a special unit is requested.

**Unknown Type Fires & Smoke in the Area:**

Building response unless the call is on an inter-state then 39-Rescue will respond only

**Bomb Scares:**

All personnel are to respond to the Station and await further orders from Police, EOC or OIC.

### Water Related Emergency Response:

1. FF operating in Marine 39 will at all times wear the company issued water rescue PPE at all times.
2. No Turnout Gear is to be worn in and around the water. Turnout gear is to be taken to the incident with the member in the apparatus but is NOT to be worn at a water incident. It is only there in case a structural incident arises.
3. All FF are to don proper PPE for Water Related Incidents.
4. Shoes or water boots maybe worn, **BUT NO FIRE BOOTS.**
5. Hand Protection to be worn if possible. (i.e. Light-weight leather gloves or Neoprene gloves)
6. When wading in non-moving or slow-moving water, all FF are to use a walking staff or pike pole for feeling your surroundings under the water.
7. All buildings or vehicles having been searched are to be **CLEARLY MARKED** by the search crew. (i.e. vehicles to be marked with provided flags, buildings are to be marked with proper markings on exterior walls as high as possible or on roofs.
8. FF are to place recovered victims in proper P.P.E. (i.e. life jacket and helmet if available.

### Rescue Related Incidents:

1. PPE to be determined by the OIC at some incidents

## **Apparatus Movement**

Station roadway warning lights should be turned on for any movement of the apparatus at the station to ensure early warning to the public and ensure firefighter safety.

## **Apparatus Station Back-up Policy**

1. Station warning lights will be turned on to ensure safety.
2. Apparatus Emergency lights must be activated while backing up.
3. Driver of apparatus shall not let crew off apparatus to back up into station. All personnel shall remain in apparatus.
4. Station Personnel shall wear reflective vest and remain on sidewalks. No personnel shall enter roadway.
5. One (1) FF shall spot the back-up of the apparatus in plain view of the driver's side rear of vehicle.
6. FF should exercise extreme caution and not walk behind apparatus when in motion or back-up alarm is sounding.

## **Apparatus Back-up Policy**

1. One (1) FF shall spot the back-up of the apparatus in plain view of the driver's side rear of vehicle.

## **Working Around Station In Proximity of A Roadway**

1. Personnel shall wear a reflective vest if apparatus is being worked on or cleaned in front of station on apron.

## **Use of Preemption Equipment**

1. Preemption equipment is to be used for emergencies only. You are responsible for the safe operation of the vehicle and the safety of your crew.
2. The preemption equipment is to aide emergency vehicles in moving safely with the traffic.
3. All emergency warning lights should be in operation to make preemption equipment function. The preemption equipment should be on the primary warning lights. Preemption equipment will function when the vehicle is in drive and parking brake is off.
4. Don't forget to set the parking break when on location so the traffic light is released to normal operation. This is primarily on the smaller vehicles the parking break MUST BE ON not just in PARK with the TRANSMISSION.
5. When responding to emergencies use caution at all times do not assume your vehicle has the right of way.
6. Do not assume the lights have changed.

7. If the traffic lights do not respond properly when you return to station inform the OIC and Chief Engineer and note on the truck report. The officers will notify the proper person to recommend action to correct.
8. Remember other emergency response vehicles may have taken control of the intersection.
9. Do not assume your vehicle has the right of way. Good safe driving skills are essential when operation any emergency vehicles at ALL times.
10. All intersections are not equipped with pre-emption devices. At this time the intersections Matsonford Road and DeHaven Avenue are not and the intersection of Matsonford Road and the 76 exit and 476-76 entrance ramps at the Park and Ride do not have this equipment in place.
11. If you have a question on the equipment, it's use and/or function. Please contact the Chief Engineer, Assistant Engineers, Fire Chief and/or the Assistant Chiefs.

## **Gear Racks**

The following is a S.O.G. for the proper storage of Fire Gear in the Company issued Gear Racks.

1) Gear racks consist of 4 sections.

- A) Fire Gear Storage Section
  - Largest open section of storage area
- B) Helmet Storage Section
  - Section just above Fire Gear Storage Section
- C) Dry Storage Section
  - Top shelf of Storage System
- D) Personal Lockable Storage Section
  - Small lockable box located in Fire Gear Storage Section

2) Rules for each section:

- A) Fire Gear Storage Section-
  - 1) Fire Coat is to be stored in this section, on metal hanger attached to rod through the section.
    - A) All Traffic Vests are to be stored on the exterior of the fire coat.
  - 2) Bunker Pants are to be stored below the Fire Coat, in a non-service state.
  - 3) Wooden Hangers may be used for storage of Rain Gear, Sweatshirts, T-shirts, Coats or anything hang able other then Fire Coats.

4) Gloves of firefighting duties may be stored in this area, outside of gear, may be stored in this area in a neat and orderly fashion.

B) Helmet Storage Section-

1) Helmets are to be stored in this area with an I.D. Tag hanging from the ring on the back of the helmet brim.

A) Shields are to be facing the rear of the storage area so that I.D. Tag is hanging off of the front of the storage area and displayable while not in service.

**\*\*note\*\*** to accommodate manufacturers recommendations on storage, the adjustable band should be ratcheted in to the smallest possible size. This will be at the opinion of the user of each helmet.

2) Firefighting gloves, Spare Firefighting gloves and smaller instruments that pertain to firefighting duties may be stored in this area.

C) Dry Storage Section-

1) Spare clothing and any item not pertaining to firefighter duties may be stored in this area.

A) All items are to be kept in an orderly fashion.

D) Personal Lockable Storage Section-

1) This area may be used to hold objects of a personal nature or valuables.

2) Locks may be used on these sections.

**\*\*Note\*\* There is to be no storage of illegal objects or personal weapons (Guns, knives, ETC...) in these sections at anytime.**

**\*\*All Line Officers will have the right to alter or adjust any of the firefighting gear in these racks that are out of an orderly fashion or stored improperly.**

## **Injuries:**

Any FF injured at incidents, schools, or fire department activities should report the injury to the Officer in Charge (OIC) immediately.

Any member injured in the line of duty or while not on duty shall report any medical limitations to the Line Officers. Upon receiving the limitations the member shall remain on the roles and able to answer to alarms, however not be permitted to ride the apparatus, until the Line Officers meet and discuss the limitations and weight the options of duty status. All injuries shall be reported to the Line Officers and a letter of restrictions shall be written by the attending physician and will be used in the decision of the Line Officers.

It shall be the Line Officers duty to protect the safety of the member whom is injured and the membership of the company. They shall also hold the meeting to discuss the matter at hand in a timely fashion and shall report those findings to the member. All decisions shall be final with no opportunity for appeal.

Upon return to full duty a letter of status shall be obtained from the attending physician and given to the Line Officers. The letter must state a return to full active duties with no restrictions. If restrictions are mentioned then the Line Officers will meet with the member to discuss his/her status, again the Line Officers decision is final.

*SAFETY IS NO ACCIDENT*

**KEEP YOURSELF AND CREW SAFE**

**RESOLUTION NO. 2023-01  
BOROUGH OF WEST CONSHOHOCKEN  
MONTGOMERY COUNTY, PENNSYLVANIA**

---

**A RESOLUTION OF THE BOROUGH OF WEST CONSHOHOCKEN,  
MONTGOMERY COUNTY, PENNSYLVANIA, FILLING A VACANCY ON  
BOROUGH COUNCIL**

---

**WHEREAS**, on December 13, 2022, Council Member Jose Ignacio Gonzalez submitted a letter of resignation from council effective immediately;

**WHEREAS**, Borough Council at their meeting on December 13, 2022 accepted the resignation of Council Member Jose Ignacio Gonzalez effective immediately;

**WHEREAS**, pursuant to 53 P.S. 45901 of the Borough Code, the Borough Council shall fill a vacancy on Borough Council by resolution;

**THEREFORE, BE IT RESOLVED** that \_\_\_\_\_,  
a registered elector of the Borough of West Conshohocken, is hereby appointed to Borough Council to serve until the first Monday in January, 2024 which is January 1, 2024 pursuant to 53 PS 45901 of the Borough Code.

**RESOLVED AND APPROVED** this 10<sup>th</sup> day of January, 2023.

**BOROUGH OF WEST CONSHOHOCKEN**

**ATTEST:**

By: \_\_\_\_\_  
**Stephen Blumenthal, President**

\_\_\_\_\_  
**Michael English, Borough Manager**

By: \_\_\_\_\_  
**Danelle Fournier, Mayor**

**RESOLUTION NO. 2023-02  
BOROUGH OF WEST CONSHOHOCKEN  
MONTGOMERY COUNTY, PENNSYLVANIA**

---

**A RESOLUTION OF THE BOROUGH OF WEST CONSHOHOCKEN,  
MONTGOMERY COUNTY, PENNSYLVANIA, APPPOINTING A MEMBER  
TO THE UNIFORM CONSTRUCTION CODE BOARD OF APEALS**

---

**WHEREAS**, the Borough Council of the Borough of West Conshohocken elected to administer and enforce the provisions of the Pennsylvania Construction Code Act (Code), Act 45 of 1999, 35 P.S. §§ 7210.101 through 7210.1103, as amended from time to time, and its regulations, by Ordinance No. 04-08 dated May 11, 2004;

**WHEREAS**, the Borough Council adopted and incorporated the Uniform Construction Code (UCC), contained in 34 Pa. Code, Chapters 401 through 405, as amended from time to time, as the Building Code of the Borough, by Ordinance No. 04-08 dated May 11, 2004;

**WHEREAS**, the Borough Council established a board of appeals under 35 P.S. § 7210.501(c) of the Code by resolution;

**WHEREAS**, pursuant to 34 Pa. Code § 403.121 of the UCC, the Borough Council shall appoint members to serve on the board of appeals;

**THEREFORE, BE IT RESOLVED** that Edward Pluciennik is hereby appointed to serve as a member on the UCC board of appeals.

**RESOLVED AND APPROVED** this 10<sup>th</sup> day of January, 2023.

MONTGOMERY COUNTY, PENNSYLVANIA**

**RESOLUTION NO. 2023-03**

A RESOLUTION OF THE BOROUGH COUNCIL OF THE BOROUGH OF  
WEST CONSHOHOCKEN, MONTGOMERY COUNTY, PENNSYLVANIA,  
DECLARING ITS INTENT TO FOLLOW THE SCHEDULES AND PROCEDURES  
FOR DISPOSITION OF RECORDS AS SET FORTH IN THE MUNICIPAL  
RECORDS MANUAL APPROVED ON DECEMBER 16, 2008,  
DISPOSE OF ITEMS PER ATTACHED EXHIBIT A

**RESOLVED**, by the Borough Council of the Borough of West Conshohocken, That:

**WHEREAS**, by virtue of Resolution No, 2009-07 adopted, April 14, 2009, the Borough of West Conshohocken declared its intent to follow the schedules and procedures for the disposition of records as set forth in the Municipal Records Manual approved on December 16, 2008, and,

**WHEREAS**, in accordance with Act 428 of 1968, each individual act of disposition shall be approved by resolution of the governing body of the municipality;

**NOW, THEREFORE, BE IT RESOLVED** that the Borough Council of the Borough of West Conshohocken, Montgomery County, Pennsylvania, in accordance with the above cited Municipal Records Manual, hereby authorizes the disposition of the following records per the attached Exhibit A.

**RESOLVED AND APPROVED** this 10<sup>th</sup> day of January, 2023.

**Borough of West Conshohocken**
