**II. COMMITTEE REPORT:**

Opening Comments/Discussion from Chair about the potential Overlay district. There was a question from residents about the process which was explained by the engineer detailing the process. The first step in the process is to create an RFP/RFQ for local planners to bid on the project.

Park update from Khal:

- Punch list for contractors, 18 months for good season and bad seasons to ensure completion
- Update to website completed last week. Master plan has no improvements changed and shows phases and speaks in detail about the information.
- Phase 2a for advertisement. LSA grant is nearly 1M for entire park. Most of everything that is on the plane. Local share grant that has no match. Can be made available and can be seen via the resolution.
- Grants are always solicited for open space, walkways, direct emails may be sent. Some grants require that we attend one day sessions to be granted.

**III. General Public Comment**

Pat Z. -wants to know if she can move the picnic tables from Pavilion to grass.  
*-yes she may*

Lisa Steifiel, resident- can we show phases of the map at a committee meeting? Khal commented that Mackenzie needed improvements and was outdated. It did not have proper equipment with ADA compliance. Point is for residence, Borough programs. Can we add pickle b-ball courts?

*-Perhaps aspirational*

Does the borough have insurance?

*-Yes, the Borough has insurance.*

Chet G. -Concerns about the ends of the trail being steep. Were representatives from DCNR? Remove topsoil and vegetation and replaced with Does the walking trail conform to Steep slope? Dates lights activated and dusk till dawn?

Denise Maleki - Lights that are facing in. Small light for disabled parking needs to be adjusted - it is shining in her house. Why are we lighting the park? They are on at 10-11 in the evening.

*-They are on for safety.*

The blacktop of the path is ADA compliant. Going to the left there is a missing piece. Can Khal review and see if we can connect?

*-We do not have to make it fully ADA compliant, but we do the best we can. DCNR has vetted our park plans.*

What will the parking look like?

*-Future phase and future grants.*

Public works does a fabulous job. The park is very clean
