Mr. Blumenthal indicated that our solicitor would review and thanked Mr. Gleba for the literature he provided.

Christine Corazza, resident, indicated that there is a possibility of 14 homes in the Borough that are being advertised as BNB. She has had countless encounters with the unruly people living specifically on Ford Street which has caused a disturbance with her and other residents. Mrs. Corazza was advised that the police need to be contacted when these incidents are occurring.

Lisa Stiefel, resident, has had an Air BNB next door to her for the last 5 years. At times she has noticed parties, attempted thefts of her personal property and unsafe with the thought of retaliation if she contacted the police for disturbance calls. Mr. Stiefel feels that the Borough is loosing money and rental applications and EIT forms are not submitted and strongly wishes that the Borough would prevent these short term rentals

II. COMMITTEE REPORT:

Public Comment on Agenda Items

- Mr Gleba - EVCS require a lot of infrastructure considerations, fees and payments for charging, chargers have various speeds and options to consider, parking and traffic issues can be created with long charging times.

Fire Marshall: got all inspection reports back except 5 Tower Bridge and the Marriott, will send all to Fire Department when completed. 4 Tower Bridge and 1K1 have active permits out now.

Code Inspector: Working on rentals, have a few left. Remaining will be cited soon for not having rental licenses. Updates on residential building codes seminar in August.

Solicitor's Report: Proposed draft ordinances (neither viewed or approved by council, just out for public comment and drafting at this point)

- Repair of Motor Vehicles (7B) - adding a new chapter to code or ordinances to regulate repair of motor vehicles done on borough streets and sidewalks
- Does not currently address the ability/responsibility to tow vehicles if they have become disabled on a sidewalk or borough street due to repairs, can we add that in addition to the ability to fine/jail?

- Mr. Dennis Frankenfield - maybe putting in a time frame to do the repairs, if it's not something you can do in a minimal amount of time noted in the emergency piece of the ordinance for example, it's not something that should be done on a public street. Maybe in

that case you notify the police or borough so they know the repair is going on and can be monitored for completion.

- Mr. Davis - recently received a mobile tire service to change his tires, met at a safe location but the change wasn't able to be done properly, left it on Summerwood until it was able to be repaired. Can we address parking lots that are/are not available for use for this location? Mobile repair services - can they be looked at?

- Ms. Scarlett - if the repair cannot be done quickly in the event of a breakdown, the ordinance should focus more on what services need to be done to get the car moved so that repairs can be done in a proper location. Refer to the Philly ordinance for ideas.

- Ms. Malecky - auto repair property on Bullock/Cedar - three vehicles flagged for towing due to abandonment there but nothing has been towed. (Chief Carfagno - tagged and notification process for 7 days is the law, can't move it before that. Must be unregistered or disabled to qualify.) Can we add that ability to any of our ordinances, select ability of towing companies to do that? Is there a rule that that block of Bullock is allowed to have double sided parking even though nowhere else seems allowed on the street? Also, there were public disturbance issues there on Fourth of July, drinking publicly, not sure what else is going on but seems unsafe. (Solicitor: parking decisions, any side of street, created by ordinance only and would need to be a separate ordinance)

- Chief Carfagno - if we're going to fine people for violating this ordinance, we need to be able to prove it in court, so a time limit may be difficult since the police won't be notified during start/stop.

- EV Ordinance (7A) - sets language and requirements for charging stations, amendment to the zoning chapter 113, especially looking for input from any professional staff and fire department
 - Not a retroactive ordinance, only covers going forward

-Mr. Dave Frankenfield - not sure if it belongs in the zoning code, also feels this would be difficult to enforce. Concerned about potential for EV charging stations in the flood zone. Liked the language about the disconnect stations, glad we took input from the fire department's concerns in the creation of this code.

-Mr. Davis - For commercial purposes, seems like chargers should be linked to an activity (i.e. going to work or going to stay at the Marriott), on borough property it may not make sense because they shouldn't be parking there for a long period of time if not linked to an activity.

-Mr. Gleba: state of the art stations now can do a charge in 30 minutes. The best way to put out an EV fire is using a blanket/smothering the fire, that technology should be invested in. Need to consider theft (of cords, plugs), trash, by EV charging stations which may put strain on our police department or public works. Residential stations seem much better than investing in these on borough property. If someone is just going to stop by for 30 minutes, where are they going to use the bathroom, etc.

Police Department:

Always call if something is wrong, in the moment. Example: traffic issue, noise violation, public disturbances, etc. Call the station for non-emergency, 911 for emergency.

- Thursday, August 1 at 9am - Mackenzie Park to have the police visit the children there
- Tuesday, August 6 at 6pm - Mackenzie Park for National Night Out, \$6,000 in donations from West Conshy and Conshy businesses not including the bicycle giveaway
- Planning the 5k again for this year, hopefully early October
- Elizabeth Moran - newest officer, hoping to swear her in next council meeting

George Clay Fire Company:

- Blood Drive on 7/12 - 26 units were donated
- Next Blood Drive 9/20, looking for community support
- Ladies' Auxiliary - August 18 back to school event at 12pm for school supply giveaway, will be hoping to recruit future firefighters at this event as well. The community can contact the fire department to donate
- Will be at National Night Out 8/6 with police department
- West Conshy was relatively lucky with the recent storms, minor cleanup and outages

Public Comment:

- Mr. Dennis Frankenfield - just wanted to confirm that the Borough Engineer was involved with the draft ordinances (he was). Would like to put the smothering blankets into the upcoming budget. Heavy metals emitted from vehicle fires could damage structures in addition to fire alone. Church/Ford to Matsonford - could we do a traffic study at that intersection to see if a light would be needed? It was something that was discussed in the past

- Mr. Gleba - August 17 - Community Day at Mackenzie Park 12-4pm

- Ms. Malecky - wanted to commend the police for presence at Church/Bullock for running stop signs, has curbed a lot of the issue. Is there any way we could change the speed limit on Ford Street, especially in the mornings it seems dangerous with the cut through traffic.

- Mr. Williams - Moorehead/Elizabeth intersection - how can we slow cars going through that way, could it be made into a corner? It seems to be a safety concern with almost a blind curve through the stop sign. Is there a solution?

Subject: Planning Commission - Resignation

Mike,

My wife and I accepted an offer on a house over the weekend. I spoke with Cristina and she mentioned I should send an email to you.

We have a quick settlement, and we close on August 5th. Due to not living in the borough anymore, I will unfortunately need to resign. It has been a pleasure working with the borough and I am excited to see all the future changes that everyone has been working on for many years.

Please let me know what you need me to do, if anything.

Thanks again for everything.
